

2022 Preventive Medication List for Consumer Driven Health Plans Core Plus List

This is a list of **Preventive Medications** that may be covered under your plan. If your plan covers these Preventive Medications, your insurance benefit is applied before you meet your deductible.

Some medications may have other requirements or limits depending on your benefit plan and are noted below. To find out if a drug is covered, please check your plan benefits on the health plan's member website. Or, call the toll-free phone number on your health plan ID card. This list may not be all-inclusive. Brand and generic drugs may not always be available due to market changes.

This list applies to UnitedHealthcare and Oxford medical plans. It is correct as of August 1, 2021 and is subject to change after this date. The next anticipated update will occur with the next PDL cycle.

CDH preventive drug lists may also be used with non-CDH plans

Effective January 1, 2022

United Healthcare

This plan includes plan participants for a self-funded plan administered by Oxford.

If you are not currently enrolled with UnitedHealthcare or Oxford for pharmacy benefit coverage, you may access your health plan's member website for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

Medications are categorized by common therapeutic conditions in this reference guide for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines how these medications may be covered for you.

Where differences are noted between this reference guide and your benefit plan documents, the benefit plan documents will govern.

This document applies to commercial group members of UnitedHealthcare and Oxford New Jersey plans.
